Phenomenology offers a particularly interesting view of cognition for social researchers. It sees consciousness as developed through experience, not the work of a disembodied mind. It takes all consciousness as intentional – in other words when we try to make sense of something it is always with a purpose in mind.

What is phenomenology?

The phenomenological method in the study of religions has provided the linchpin supporting the argument that Religious Studies constitutes an academic discipline in its own right and thus that it is irreducible either to theology or to the social sciences. This book examines the figures whom the author regards as having been most influential in
